

According to the global [Electronic Logging Device Market](#) report published by Value Market Research, the market is expected to touch USD XXX BN by 2026, with a CAGR of X.XX% growing from valued USD XXX BN in 2019. This is a tailored made research service providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

This research report also includes profiles of major companies operating in the global market. Some of the prominent players operating in the global electronic logging device market are Donlen Corp., Geotab Inc., Omnitracs LLC, Teletrac Navman US Ltd., and Trimble Inc.. This section cover profiling of major players in terms of important aspects such as company overview, financial overview, business strategy, and recent developments undertaken during the forecast horizon.

### **Market Dynamics**

The increasing adoption of ELDs in heavy vehicles such as trucks owing to the growing preference for road transportation in developed countries, as it enables fleet managers to know the location of their trucks, is primarily driving the market growth. Moreover, rising awareness in emerging economies regarding the use of ELDs in vehicles as it enhances the quality of driving and provides real-time notifications to the drivers on the condition of vehicle parts is further pushing the market value. However, the high cost associated with ELDs could challenge the market demand.

The report has been created by using crucial tools such as Porter's Five Forces Model, Market Attractiveness Analysis and Value Chain analysis to help businesses around the globe navigate opportunities and challenges in the rapidly evolving marketplace with clarity. These tools also serve the detailed information of each application/product segment in the global market of electronic logging device.

### **Market Segmentation**

The study offers a decisive view of the global electronic logging device market by segmenting it in terms of component. The report analyzes these subsets with respect to the regional segmentation. This research study will prepare marketers for the evolving needs of their customers.

### **By Component**

- Telematics Unit
- Engine Module
- External Display

## Regional Analysis

This section covers electronic logging device market for the regions North America, Europe, Asia-Pacific, Latin America, and Middle East & Africa. Regional segmentation has been done based on the present and future trends in the global electronic logging device market along with the individual application segment across all the prominent region.
